

Training session on CEIC's CDMNext Application

Venue : Committee Room, Dr B. R. Ambedkar Central Library
Date : 7th August 2019 (Wednesday)
Time : 10:30 PM – 11.30 AM

CEIC offers 5.5 million + time series data sets on Macro & Micro Economic datasets.

Training Session will Cover:

- A. Global Database - More than 4+ million time series covering 200+ economies. Granular country-level information on 18 macroeconomic sectors, such as inflation, exports, tourism and more. Detailed methodological references at indicator, dataset, sector, and country levels. Key series feature for quick reference on key country indicators, such as GDP, GNP, FDI, and CPI. Focused coverage of key country players in 14 different industrial sectors. Thousands of primary local sources and reputable third-party data from international organizations, such as the IMF and World Bank**
- B. World Trend Plus DB -Enables convenient and in-depth fundamental analysis across countries and regions through a comprehensive set of standardized benchmarks Boosts planning with forecast and sentiment data, offering the latest outlook on the global economic situation Offers insights into investment opportunities through comparisons of countries' competitiveness based on 250+ indicators**
- C. India Premium DB -With over 360,000 time series, across 18 economic topics and 15 industry sectors, the India Premium Database is the definitive go-to-resource for analysts, investors, and strategists, to assess and run analytical models, on the Indian economy. India, one of the fastest growing economies in the world, has a young demography and a steady pace of reforms. Analysing the evolving economic dynamics requires access to a comprehensive array of variables for research and analysis. With records from as early as 1951, this database offers an expansive range of national and subnational variables with varying frequencies. Our relationship with local sources, enables first hand access to detailed, reliable, and timely information.**
